Prevue Screen
Applicant Personality Screening

Simple and Instant Candidate Reporting

Built for High Turnover Positions

Prevue Screen was designed for high turnover and high applicant volume positions that would traditionally not allow for a psychometric assessment because of cost or length. Key industry sectors that have expressed a demand for a short, personality-based screening tool include hospitality, tourism, retail and call centers.

Reduce Your Time to Hire

Prevue Screen instantly provides an indicator that shows if a candidate should be moved along in the hiring process. This dramatically reduces the time that it takes to review applicants and ultimately, make a hiring decision. Studies show that businesses who implement Prevue Screen into their recruiting efforts have hired more than 90% of applicants they interviewed after the candidate scored a 'Good' fit screening indicator.

Mobile Friendly

The Prevue Screen testing process is mobile - and candidate - friendly. Candidates are simply redirected after their submit their application, using their preferred browser, where they can either complete the assessment through a desktop, laptop, tablet or even a smartphone. The Prevue Screen only takes 5-8 minutes to complete and boasts low abandonment rates, as candidates are not overwhelmed.

Benchmarks Ensure Consistency

Prevue Benchmarks enable you to set a standard for each position that you screen for. Developing a benchmark is simple and easy; key staff members take a quick survey, online. Most companies greatly appreciate the benchmark creation process, as it allows everyone to reach a consensus about the job's expectations.

Fully Integrated

The Prevue Screen personality assessment comes pre-loaded in the Prevue APS Pro, so you can start your enhanced candidate screening right away. No need to login to 2 systems, all of the information you need is clearly displayed on one dashboard.
