Taking the Guesswork Out of Hiring

Improve Your Hiring Success

Companies who use Prevue job-fit tests can experience a 50% decrease in turnover. Designed as a premier hiring tool, you can be confident in Prevue Assessments results as they will generally not change over time. You can now have the confidence to make hiring decisions for the long run. It's time to take the guesswork out of your hiring.

Increase Your Hiring Speed

Stop spending hours worrying about whether a candidate is a good choice or not. The Prevue Assessments give you concrete facts to assist in your hiring decision. Every aspect of hiring is subjective: résumés, references, interviews. Give yourself something tangible to help make your choice. With the Prevue Job-Fit Assessment, your company will be able to make hiring decisions quickly, helping you recruit top talent.

Be Prepared For The Interview

Believe it or not, interviews typically favor the interviewee. Each applicant has crafted a résumé and has some idea what questions you are going to ask. Getting to the truth can sometimes be tricky. You need tools to help you interview effectively. Receive a report for each candidate who takes an assessment that shows how the candidate fits the role and provides you with a targeted interview guide including questions.

Ensure Consistency With Benchmarks

Prevue Benchmarks enable you to set a standard for each position that you fill. Developing a benchmark is easy; those who know what it takes to be successful in the role take a quick online survey, top performers are assessed and job descriptions are analyzed. The results are compiled to create an accurate depiction of the traits and abilities that are required for the job. Most companies greatly appreciate the benchmark creation process, as it allows everyone to reach a consensus about the job's expectations.

Know The Whole Candidate

The Prevue Assessments measure 20 different scales of an individual covering the areas of General Abilities, Interests/Motivation and Personality. Within each area, our tests dive deep to show you a comprehensive look at your candidate, helping you determine job-fit and cultural-fit for each candidate.
